

Primavera P6 SaaS or Oracle Primavera Cloud

Primavera planning and scheduling solutions are trusted, and battle tested by Owners and Delivery Teams the world over. However, as organizations continue to transition from on-premise solutions to cloud options, which Primavera solution best aligns to your organizations current and future business needs is important to answer. This Datasheet is designed to help clarify the choices ahead of you so you can make an educated decision that is right for you, your organization, your customers, your partners and your people.

Primavera P6 SaaS

It is worth stating up front that Primavera P6 isn't going anywhere. With an adoring and dedicated following its capabilities around planning, scheduling and resource management have made it the "go to" solution for Commercial, Infrastructure and Industrial engineering and construction use cases for the better part of four decades. However, many organizations have strategically decided to move their mission critical project management capabilities onto the cloud, and the planning, scheduling and resource management of projects and programs are no exception.

Top 3 Reasons for Primavera P6 SaaS

While there are numerous reasons to move your Primavera P6 experience to the Oracle Cloud, our customers consistently report these as their top 3 reasons:

1. ***Minimize Disruption*** – no change to user experience!
2. ***Simplify IT*** – Oracle optimized architecture, always current, enhanced customer services and support.
3. ***Lower Total Cost of Ownership*** – eliminate on-prem costs, upgrades are included.

What's Included with P6 SaaS on the Oracle Cloud

- ✓ **P6 EPPM** – no disruption to users, same great experience now provided on the Oracle Cloud
- ✓ **P6 Professional** – install client application with a single click, configures connectivity to the cloud server, upgrades and patches are automatic, option to work offline with a local database, eliminates the need to citrix
- ✓ **Team Member** – a simple solution to update and approve project status from anywhere
- ✓ **P6 Web Services** – integrate your P6 SaaS environment with 3rd party applications, each P6 license includes a web services license
- ✓ **BI Publisher** – run reports in P6, over 50 out-of-the-box standard reports available with endless options to build your own
- ✓ **Primavera Data Services** – extract your P6 SaaS data and information for use with your preferred business intelligence and reporting solution
- ✓ ***Single Sign On** – enable federated identity single sign on through SAML 2.0 (* added cost)

Oracle Primavera P6 SaaS has the same functionality as Primavera P6 on-premise. Streamline user administration with our cloud administration tool to create and manage users in P6. Consolidate user administration between multiple databases and across all included products.

Benefits of Primavera P6 SaaS

Enhanced Support and Best Practices	Optimized Architecture	Adopt Innovation Faster	Lower Total Cost of Ownership
			
Streamlined Process Staged Environments Vendor Accountability Customer Success Mgr	Scalability Maintain Control Integration Security	Turnkey Environment Always Current Always Available	Eliminate On-Prem Costs Upgrades Included Oracle Infrastructure

Primavera P6 On-Premise to Primavera P6 SaaS Migration Options

- ✓ **Migrate Existing Database** – move database(s) and pump into Oracle Cloud
 - ✓ **New Database** – create a new database and import selected projects
 - ✓ **Start from Scratch** – start all new projects with Primavera P6 SaaS
- *Migration services available** – “free option” must meet min criteria of EPPM 8.1 or higher, database less than 100GB, database on Oracle 10g or higher (added exclusions may apply)

Oracle Primavera Cloud

Oracle Primavera Cloud is not Primavera P6 in the Cloud. While it shares the same trusted scheduling algorithms and pedigree of Primavera P6, it has been engineered from the ground up as a next generation native SaaS solution. The perfect fit for both large *and* small projects it has a clean and modern user experience compared to P6 and is welcoming to beginners and experts alike. Engineered to work with Primavera P6, data and information can be exchanged between the two should your contracts, customers, partners or suppliers demand it.

Top 3 Reasons for Oracle Primavera Cloud

While there are numerous reasons to move your Primavera P6 experience to the Oracle Primavera Cloud, our customers consistently report these as their top 3 reasons:

1. ***The Magic of One Unified Plan*** – structurally connected CPM contract and field task management collaborative planning and scheduling.
2. ***All Projects & All Users Matter*** – the perfect fit for large *and* small projects, loved by beginners and experts alike.
3. ***More Than Just Scheduling*** – while great at planning and scheduling using blended means and methods (beyond just traditional CPM) Oracle Primavera Cloud additionally has you covered for field task management, resource management, comprehensive risk management and portfolio management and capital planning capabilities for Owners.

What's Included with Oracle Primavera Cloud

- ✓ **CPM Contract Planning and Scheduling** – the same trusted scheduling algorithm and pedigree from Primavera P6
- ✓ **Field Task Management Planning & Scheduling** – digital planning boards supporting lean pull and last planner ® methodologies, identify and release constraints, track field commitments and get automatic planned percent complete reporting, structurally tied to the contract schedule
- ✓ **Resource Management** – easily resource load the schedule, identify resource bottlenecks and demands within and across all your projects
- ✓ **Risk Management** – comprehensive risk management including a centralized risk register, qualitative and quantitative risk analysis, monitoring and control for every member of the project team. Supports all six steps of PMI's Risk Management Framework and best practice
- ✓ ***Portfolio Management and Capital Planning** – identify, evaluate and select (fund) the right projects and programs that best align to your organization's strategic goals and objectives
- ✓ ***Module is specific to Owner organizations (sold separately or included as part of an enterprise bundle to help Owners do the right projects then do projects right)**

Benefits of Oracle Primavera Cloud
